<sup>1</sup> Variable rate security; rate shown is the rate in effect on September 30, 2020. An index may have a negative rate. Interest rate may also be subject to a cap or floor.

<sup>2</sup> Denotes investments purchased on a when-issued or delayed delivery basis.

<sup>3</sup> Bank loans generally pay interest at rates which are periodically determined by reference to a base lending rate plus a premium. All loans carry a variable rate of interest. These base lending rates are generally (i) the Prime Rate offered by one or more major United States banks, (ii) the lending rate offered by one or more European banks such as the London Interbank Offered Rate ("LIBOR") or (iii) the Certificate of Deposit rate. Bank Loans, while exempt from registration, under the Securities Act of 1933, contain certain restrictions on resale and cannot be sold publicly. Floating rate bank loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy.

<sup>4</sup> Perpetual call date security. Date shown is next call date.

<sup>5</sup> Fixed-to-variable or fixed-to-float bond; rate shown is the rate in effect on September 30, 2020. An index may have a negative rate. Interest rate may also be subject to a cap or floor.

<sup>6</sup> All or a portion of the loan may be unfunded.

<sup>7</sup> Denotes investments purchased on a when-issued or delayed delivery basis.
